Oilii Conversations

**Other Overview**

Other is a new note-taking app that empowers you to remember, search, and share your voice conversations all in one place. Every day we convey and receive an enormous amount of information verbally. Until now, it's been impossible to **review** or search this information. With Other, voice conversations are as easy to manage as email or other text communications. Other can be used to capture and manage information from in-person meetings, phone calls, video conferences, interviews, sales pitches, school lectures, and other important conversations.
